DETAILED ACTION

Applicant's arguments filed 5/24/05 have been fully considered but they are not persuasive. See arguments below.

I. Rejection of claims 1,4,5,7,22-27 under 35 USC 102(b) will be anticipated by Hink et al for reason on record and reason as follows. Applicant argues that instant invention use non-lethal amounts of linalool to inhibit the ability of mosquitoes from sensing a target; whereas, Hink uses lethal amounts of linalool to kill mosquitoes. Examiner argues that claims do not include an amount of linalool. Therefore, Hink's invention reads on instant invention. Examiner argues that in Hink's Table III it is displayed that 50% of the mosquitoes live after 15 minutes of exposure to 2.5% linalool. Therefore to a certain extend, it can be concluded that linalool at 2.5% is not absolutely fatal to mosquitoes.

II. Rejection of claims 2 and 3 under 35 USC 103(a) will be maintained for reason on record and reason as follows. See argument in I above.

III. A new ground(s) of rejection is made below.

Claims 1-5,7,22-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term "non-lethal" in the claims is as new matter.

Art Unit: 1616

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
